#### BINA BANGSA SONG

Verse 1

Let us all join our hands and pray At the dawn of every single day That we strive to do our best And cross over every test

Verse 2

There are times when I don't understand But I know that you will take my hand Helping me to learn and grow With the things I ought to know

Verse 3

Knowledge will empower me 'Cause I know that it's the key I will always want to be The best that I can be

Verse 4

Love and respect in all of our hearts We shan't fail to always do our part As we build upon our past We will make our future last

#### • Chorus

Bina Bangsa we shall strive Humbly serve but full of pride By our deeds we glorify Our Lord, our eternal guide

...

## MISSION

To be a school that nurtures leaders who strive to be the best that they can be through lifelong learning, rooted in our culture, grounded in the Word of God.

## VISION

To enable students to realise a clear sense of self-worth, inculcate discipline, instill open mindedness, integrity, tenacity and courage throughout their learning journey.

## VALUE

Integrity
Teamwork
Passion
Dedication
Compassion
Ability to Inspire

## SENIOR PRINCIPAL MESSAGE

SENIOR PRINCIPAL

Mr Lee Ting Jian

www.binabangsaschool.com

The need for increased connection became abundantly clear during the pandemic. For many, social media has become a lifeline to the outside world, especially as people look for ways to stay connected and entertained.

There are also increasing opportunities for schools to adopt social media to the teaching and learning needs of the students. In BBS, we have incorporated the use of various social media plugins to enable sharing and interaction among students, teachers and parents. Students continue with their studies from the online lessons, resource materials and quizzes that are uploaded onto our very own improved Academic Information System (AIS). As an education institution, we have taken the crucial steps to be active on many learning platforms to help create better learning environments during the pandemic, and to instil in our student a learning culture that prepares them for the future.

However, the focus for us in BBS is not only to equip our students with the necessary skills in using social media but more importantly to teach our students to be safe and responsible digital citizens. A responsible digital citizen means being part in online community in an ethical and respectful manner. We have organised seminars, talks and constantly reminded our students to behave lawfully, recognise their rights and be responsible when using social media. Our students have realised that their online activities will not only affect them but also others in the wider online community. At the same time, they have learnt to protect their privacy and not to infringe on others.

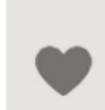

In BBS we have not only survived this pandemic, but have thrived in many areas. Our students have continued to perform well academically as well as achieved many successes in areas such as music, arts, robotic, entrepreneurship and community service. I would like to take this opportunity to thank our teachers for going beyond their core duties to help our student succeed in all areas. I would also like to thank our parents for their continuing support and trust in the school during this challenging time.

We are all looking forward to returning to school in the next academic year, when we can interact with our teachers and friends face-to-face. I am confident that BBS KJS will achieve greater heights with hard work, passion and the grace of God.

Stay safe until we greet and welcome all of you at the school gate. May God's blessing be with all of us.

Mr TJ

## PRINCIPAL MESSAGE

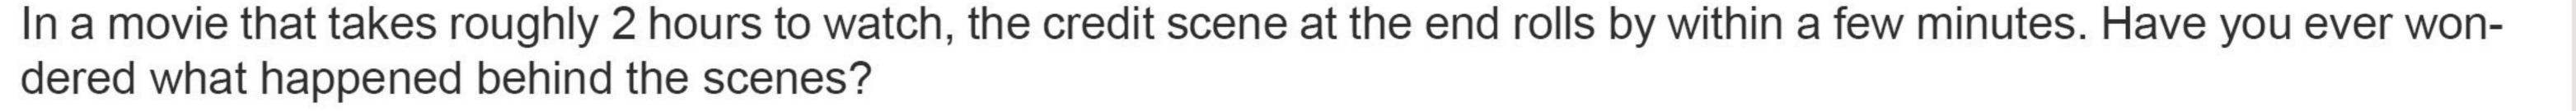

#### Mr Richard Herawaty

#### PRINCIPAL

www.binabangsaschool.com

#### Behind the Scene

Within those few minutes, what we see does not tell us how complex the preparations and the activities behind the movie. Behind every scene of a movie, there are people who work hard to make sure the scene works as intended. There are people for the sound effects, there are some to ensure the colour of the scenes in the movie is corrected, there are people who prepare the properties of the setting in the scenes, and many more examples of these that would make this message too long. What goes on behind the scenes is no less important than the movie itself.

What happens behind the scenes in a movie is similar to that of a class. Behind every class, there are teachers who planned for lessons, there are experts who were tasked to update the syllabus, there are groups of teachers who are focused in setting exam papers, and so on. Like hundred and thousands of cogs and parts working together in a clock to show merely the 3 moving hands, the scenes behind the class are complicated and takes a collective effort to succeed - every day, every minute, every hour.

The pandemic did not make it easier for the teachers. Teachers had to make adjustments. The same also happened to students. Everyone had to adapt to a new way of learning during the pandemic. Some students can adjust fast, some cannot. Some students needed extra help in their studies, while some students offered help to their friends. In lifting someone else up, they had also lifted themselves up. We all had to adjust; and by God's grace, we were able to finish the academic year 2021-2022.

There are a few things we learned having gone through this pandemic.

First, we should not take things for granted. Give thanks in all circumstances (1 Thessalonians 5:18a). For our God is good and merciful.

Second, we should realise that we are a resilient team. Together, we can accomplish many things through unexpected challenges, even during pandemic.

Last, we should appreciate the life God has given us, the friends around us, and the family we are born into. Life is beautiful, make the most of it. And, may God bless all of us.

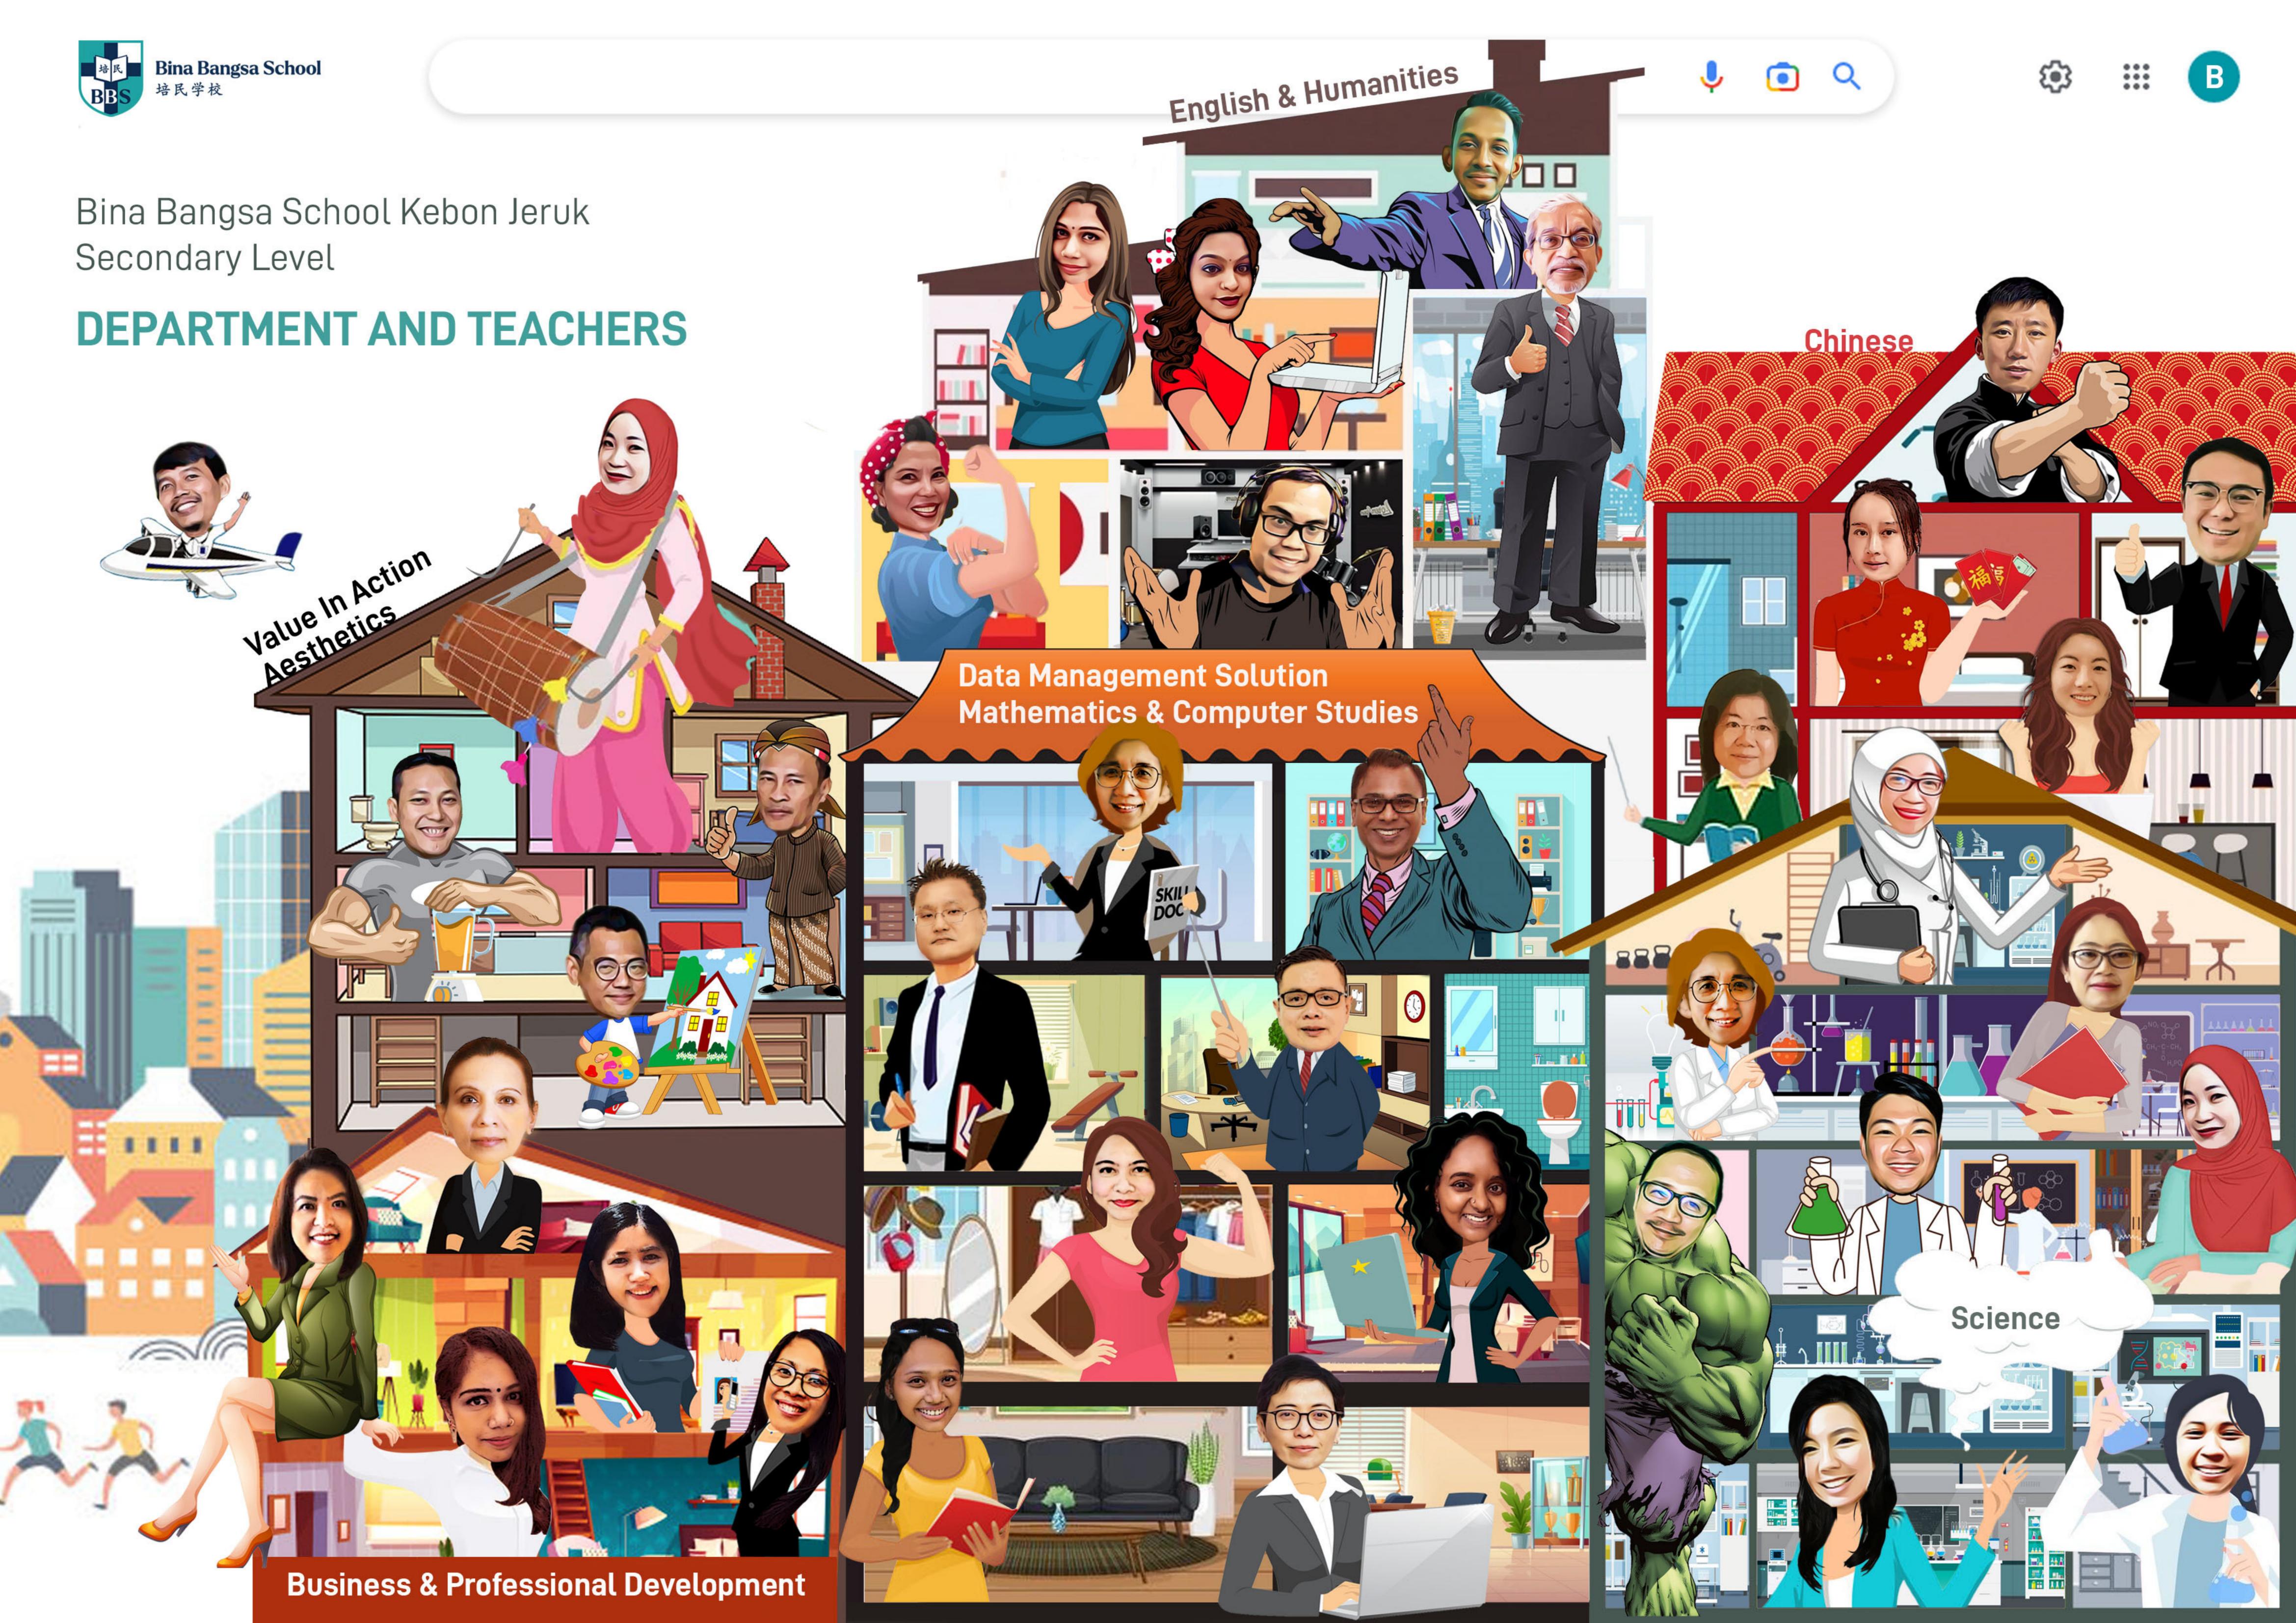

Western Music Department.

## HEAD PREFECT

This academic year provided a lot of challenging times that we experienced together as a team during this pandemic and with the opening and closing of offline school. To start of, I would like to commend and thank the high committee: Stella, Joe, Jocelyn for their patience, dedication and perseverance towards the prefectorial board. We have been through a lot of harsh times such as the SGLC. I could not be there since I was ill but I am very grateful for the three of you as you have lead the team in the event (and also the whole board) with an incredibly inspirational leadership. I also would like to comment on our teacher's day since we planned to do the booth however the school abruptly closed again.

I express my gratitude for the dedication put into this event as we all went to school even after teacher's day to put up this booth during our term break. I would also like to commend and thank the Executive committee: Carissa, Charles, Cherrie, Jessica, Kayla, Kyra, Evelyn, Naomi, Frederich, Victoria and Valerie for fulfilling their roles beyond expectation and always helping to lead their specific committees and levels. From the tight deadlines that we have to complete our activities in and the effort put into these activities to make them as great as they are, I believe we can all tell ourselves and commend each other that we have all done an exceptional and noteworthy job this year.

I hope that in the near future, those who we have lead during our time will nurture into even better leaders. To the rest of the prefectorial board, I also am very grateful to all of you for your cooperation and commitment towards the board. Without all of you, the board would not be as organized and filled with fun activities for our school and board so clap and rejoice with our achievements as we all have put our undeniable efforts on working on them together and in result we have done a splendid job. I also have to thank the teachers: Ms Rishani, Mr Ganes, Mr Kim and Ms Angeli for leading us in this year's prefectorial board. From school activities to orientations to our BBS connect, I thank you for always being there to guide us in making the right decisions but also for us to step up and make the decisions ourselves.

The rest of the school also needs to thanked for complying with our activities, giving us feedback and volunteering in others. We could not accomplish these achievements without the support and help from our beloved school.

This year has a been a great year filled with challenges though I believe we have grown closer as a team when we triumphed them. Once again, thank you for this year's prefectorial board, none of the activities and events we have done could have been accomplished without all of you. I wish the next year's prefectorial board success and to never give up so to be able to reach even greater heights. With that, I will be signing off, thank you and God Bless.

binabangsaschoolkj

#### **Evelyn Aprillia Huang**

First, I just wanted to thank the school for giving me this chance to take the position as the Editor in chief. Of course, personally, I had my doubts but I would approach this challenge with an open mind and my full commitment. This was a chance to prove that I am capable of leading my peers while working collaboratively. I'd also like to thank Mr Ganes and Wynne for constantly

encouraging me when the workloud starts to pile up and to each member of the yearbook team
for putting extra efforts into designing and collecting the materials for this yearbook.

Although the creation of this yearbook has been undoubtedly stressful, I learned a lot of things as
well. This experience has not only enhanced my creativity skills and graphic design knowledge but

well. This experience has not only enhanced my creativity skills and graphic design knowledge but it also trains my leadership and time management skills.

Onto the contents of the yearbook itself, the theme we chose this year, 'social media', is a small representation of the activities students have been doing during online learning. We chose this because we feel it relates to us the most during this pandemic as students studying from home. The pages are inspired by the different and colourful social media platforms that actually exist. From this I sincerely hope that you teachers, students and parents will like this yearbook and keep it forever.

To the future yearbook team, I hope you have a great time during the process and all goes well. I know that many problems or difficulties will arise but treat all of the struggles and stress you experience as a learning journey. Don't forget to take breaks and take care of yourselves!
