On the 9<sup>th</sup> till the 11<sup>th</sup> of January, Bina Bangsa School Kebon Jeruk Student Council took part in the 2024-2025 Leadership Camp with the theme "Leadership that Moves, Actions that matter". This year's leadership camp was filled with informative discussions, fun games, and enlightening activities.

The camp began with everyone being split into 10 groups, assigned to take care of one egg, becoming a highlight of the camp, showcasing the strategy and creativity each team was able to deliver. This year, the leadership camp was located at the 5G Resort, Bogor. As soon as students and teachers alike arrived, the first session was commenced, which was in fact First-Aid Training. Here, they learnt basic lifesaving first aid skills and knowledge of workplace health and safety regulations. The day continued with a session about effective leadership, where we learnt the qualities of being a great leader, such as clear communication and thinking, mutual respect and empowerment, time-management and self-awareness, educating the Student Council the ability to guide and make a lasting impact.

On the second day, everyone woke up early for a morning exercise, followed by the highly-anticipated scavenger hunt. Groups participated in several fun and exciting activities, gaining clues, to ultimately find the answer. This session was followed by situational training, where each group was required to act out a scene and perform first aid training steps, they learnt the previous day. At last, the final night, a bonfire was held. The crackling fire, the aroma of food, and the singing created a comforting ambiance to end off a refreshing camp. To conclude, this leadership camp allowed the Student Council to navigate challenges, make responsible decisions, and inspire others to achieve common goals. It helped them grow into leaders who are capable of managing themselves and guiding a team towards success.
